PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience building enterprise-grade applications using .NET, Angular, C#, TypeScript, and SQL Server. Proven success delivering scalable financial and document management systems in Agile environments.

CORE SKILLS

.NET • C# • Angular • TypeScript • SQL Server • REST APIs • Agile • Azure Fundamentals • CI/CD

PROFESSIONAL EXPERIENCE

Broadridge Financial Solutions — Senior Software Engineer (2017–Present)

- Developed next-generation Portfolio Management System using Angular, .NET, and MSSQL.
- Helped modernize legacy Silverlight application before end-of-support.
- Built reusable Angular controls and layouts using Telerik Kendo UI.
- Performed code reviews and mentored developers within Agile teams.
- Collaborated with product, UX/UI, backend, and QA teams on enterprise financial applications.

Dokmee (Office Gemini) — Senior Software Developer (2014–2017)

- Built enterprise document management systems using AngularJS, ASP.NET, and MSSQL.
- Developed WPF/MVVM desktop applications and backend Windows Services.
- Supported Dokmee Cloud SaaS platform with nearly 3,000 accounts.
- Created scanner integration plugin that significantly increased bundled product sales.
- Configured CI workflows and supported IIS deployments.

FEATURED PROJECTS

- OrderSystem — Enterprise-style order management platform demonstrating clean architecture, APIs, authentication, and scalable backend design.
- Trend Strategy Backtester — Python-based stock strategy backtesting and visualization platform deployed with Streamlit.
